SWADESH CONCENTRATE PRODUCT RANGE

- **Green Floor Cleaner Concentrate 5x**
- **Walker Type (A Grade) Floor Cleaner Concentrate 5x**
- **Mop Floor cleaner (Perfumed) Concentrate 10X**
- **Hand wash Concentrate 5X**
- **Detergent liquid Concentrate 5X**
- **Woolen Wash Liquid Concentrate 5X**
- **Multi-Purpose Cleaner Concentrate 5X**

Toilet Cleaner Concentrate 5X

Ingredient	Proportion
TCC 5X	1 KG
DM Water	4 KG

Process For 5 liter Batch :

- Add **TCC 5x @ 1kg,**
- Add 4 Kg water slowly and stir rigorously (at 150-200 RPM approx.) for 15 mins. Let it set for 24 hours.

- Continue Same Proportion for Next Batch.

Toilet Cleaner Concentrate 40X

Ingredient	Proportion
TCC40X	1 KG
DM Water	29 KG
HCL	10 Kg

Process For 40 liter Batch :

- Add 29 Kg water first,
- Then after add **TCC40x** @ 1kg, mix uniformly by stirring up to minimum 15 minute.
- Add 10 Kg HCL (32%) and stir rigorously (at 150-200 RPM approx.) for 15 minutes
- Let it set for 24 hours. Product is ready for fill in Bottle.

- Continue Same Proportion for Next Batch.

Toilet Cleaner Concentrate 20X

Ingredient	Proportion
TCC20X	1 KG
DM Water	14KG
HCL	5 Kg

Process For 40 liter Batch :

- Add 29 Kg water first,
- Then after add **TCC40x** @ 1kg, mix uniformly by stirring up to minimum 15 minute.
- Add 10 Kg HCL (32%) and stir rigorously (at 150-200 RPM approx.) for 15 minutes
- Let it set for 24 hours. Product is ready for fill in Bottle.

- Continue Same Proportion for Next Batch.

Bathroom Cleaner Concentrate 5X

Ingredient	Proportion
BCC 5X	1 KG
DM Water	4 KG

Process For 5 liter Batch :

- Add **BCC 5x @ 1kg,**
- Add 4 Kg
- DM water slowly and stir rigorously (at 150-200 RPM approx.) for 15 mins. Let it set for 24 hours.

- Continue Same Proportion for Next Batch.

Dish Wash Gel Concentrate 5X

Ingredient	Proportion
DWC 5X	1 KG
DM Water	4 KG

Process For 5 liter Batch :

- Add **DWC 5x** @ 1kg,
- Add 1 Kg Water first & Break Paste & Mix Well, After Stable add Remaining water 3 Kg DM water slowly and stir rigorously (at 150-200 RPM approx.) for 15 mins & Keep it Aside for Stable.

- Continue Same Proportion for Next Batch.

Available color: Yellow/Green
Flavour: Lemon/Orange

Glass Cleaner Concentrate 30X

Ingredient	Proportion
GCC 30X	1 KG
DM Water	29 KG

Process For 30 liter Batch :

- Add **GCC 30X** @ 1 Kg,
- Add 29 Kg DM water slowly and stir rigorously (at 150-200 RPM approx.) for 15 mins

- Continue Same Proportion for Next Batch.

Mop Floor Cleaner (Perfumed) Concentrate 10X

Ingredient	Proportion
M FCC 10X	1 KG
DM Water	9 KG

Process For 10 liter Batch :

- Add **M FCC 10X** @ 1 Kg,
- Add 9 Kg DM water slowly and stir rigorously (at 150-200 RPM approx.) for 15 mins.

- Continue Same Proportion for Next Batch.

Available color: Yellow/pink/lavender/orange
Flavour: Lemon/Rose/lavender//sandal

White Floor Cleaner Concentrate 25X

Ingredient	Proportion
WFCC 25X	1 liter
DM Water	24 KG

Process For 25 liter Batch :

- Add **WFCC 25X** @ 1 liter,
- Add 24 liter DM water slowly and stir rigorously (at 150-200 RPM approx.) for 15 mins

- Continue Same Proportion for Next Batch.

Black Floor Cleaner Concentrate 10X

Ingredient	Proportion
BFCC 10X	1 Kg
DM Water	9 KG

Process For 10 liter Batch :

- Add **BFCC 10X** @ 1 Kg,
- Add 9 Kg DM water slowly and stir rigorously (at 150-200 RPM approx.) for 15 mins.

- Continue Same Proportion for Next Batch.

Green Floor Cleaner Concentrate 5x

Ingredient	Proportion
GFCC 5X	1 Kg
DM Water	4 KG

Process For 5 liter Batch :

- Add **GFCC 5X** @ 1 Kg,
- Add 4 Kg DM water slowly and stir rigorously (at 150-200 RPM approx.) for 15 mins

- Continue Same Proportion for Next Batch.

Walker Type (A Grade) Floor Cleaner Concentrate 5X

Ingredient	Proportion
FCC 5X	1 Kg
DM Water	4 KG

Process For 5 liter Batch :

- Add **FCC 5X** @ 1 Kg,
- Add 4 Kg DM water slowly and stir rigorously (at 150-200 RPM approx.) for 15 mins.

- Continue Same Proportion for Next Batch.

Hand Wash Concentrate 5X

Ingredient	Proportion
HWC 5X	1 Kg
DM Water	4 KG

Process For 5 liter Batch :

- Add **HWC5X** @ 1 Kg.
- Add 1 Kg Water first & Break Paste & Mix Well,
- After Stable add Remaining water 3 Kg DM water slowly and stir rigorously (at 150-200 RPM approx.) for 15 mins & Keep it Aside for Stable.
- Continue Same Proportion for Next Batch.

Liquid Detergent Concentrate 5X

Ingredient	Proportion
DLC 5X	1 Kg
DM Water	4 KG

Process For 5 liter Batch :

- Add **DLC5X @ 1 Kg.**
- Add 1 Kg Water first & Break Paste & Mix Well, After Stable add Remaining water
3 Kg DM water slowly and stir rigorously (at 150-200 RPM approx.) for 15 mins & Keep it Aside for Stable.

- Continue Same Proportion for Next Batch.

Woolen Wash Liquid Concentrate 5x (With Foam, Easy Type)

Ingredient	Proportion
WWLC 5X	1 Kg
DM Water	4 KG

Process For 5 liter Batch :

- Add **WWLC5X** @ 1 Kg.
- Add 1 Kg Water first & Break Paste & Mix Well, After Stable add Remaining water
3 Kg DM water slowly and stir rigorously (at 150-200 RPM approx.) for 15 mins & Keep it Aside for Stable.

- Continue Same Proportion for Next Batch.

Multi-Purpose Concentrate 5X

Ingredient	Proportion
MPC 5X	1 Kg
DM Water	4 KG

Process For 5 liter Batch :

- Add **MPC5X @ 1 Kg.**
- Add 1 Kg Water first & Break Paste & Mix Well, After Stable add Remaining water
3 Kg DM water slowly and stir rigorously (at 150-200 RPM approx.) for 15 mins & Keep it Aside for Stable.

- Continue Same Proportion for Next Batch.

Fabric Conditioner & Softener Concentrate 5X

Ingredient	Proportion
FCC 5X	1 Kg
DM Water	4 KG

Process For 5 liter Batch :

- Add **FCC 5X@ 1 Kg.**
- Add 1 Kg Water first & Break Paste & Mix Well, After Stable add Remaining water
3 Kg DM water slowly and stir rigorously (at 150-200 RPM approx.) for 15 mins & Keep it Aside for Stable.

- Continue Same Proportion for Next Batch.
